ABOUT

I'm a passionate Web Developer with a focus in Wordpress who is devoted to creating art with technology. My goal is to always strive to stay up-to-date on current trends while creating the highest quality products in a creative, productive environment surrounded by people who share my drive. I also enjoy personal aviation, hiking, seeking thrills, eating cheese, polka dancing, petting cats, and watching bad TV.

PASSIONS

I have always loved to teach and share my knowledge, especially in regards to girls in technology. The empowerment of women is important to me. In Cleveland, I worked with **Girls Who Code**, and now with an organization called **Gwen's Girls**. Together, we started the first coding course for inner-city girls of color in Pittsburgh. As I move to Greensburg, a suburb of the city, I will be volunteering with the local **YWCA** to teach Robotics and Coding.
